

Noise Level Reminders

Quiet Hours Daily After 10PM

We ask that all residents be thoughtful and considerate of their neighbors. General rules of good conduct should be observed at all times.

- **Furniture** All furniture must either have rubber castors and felt pads.
 - Pianos must have at least half an inch of neoprene pads underneath the supports to minimize vibrations.
- **Audio Volumes** Radios, stereos, TVs, and musical instruments must be at a reasonable level so that other neighbors are not disturbed.
 - Speakers and TVs should not be mounted on walls shared directly with neighbors.
 - All speakers must be elevated from the floor by a proper acoustic platform such as a speaker stand.
- **Pets** are prohibited from being excessively noisy on both Terraces and inside the Unit.
- **Common Areas** Residents and their guests must also keep in mind of their noise level when using the Common Areas.
